- Progress Review items discussed and proposed for the check list [Input for Ed - action item from July 27th call]
 - If only Creation Review held, then provide update on the Plan
 - If specification is dormant then confirm that no further enhancements known at this time (Service Release remains an option)

Plan Review check-list, [Draft PR](#) was presented by Ed and discussed by the committee
Note that the Plan Review template is [here](#).

Committee is requested to review the check-list and add comments to the PR, also check that the checklist and template are in sync.

Checkpoint in next call and merge PR if ready.

Note: Progress Review checklist to be covered separately.

- [EJ] revisit Jakarta TCK process regarding whether to allow tests to be updated in a service release

<https://www.eclipse.org/lists/jakarta.ee-spec.committee/msg03244.html>

TCK process does not allow updates to tests within a service release, for Concurrency an exception had to be granted, are there some changes that can be permitted?

[Jakarta EE TCK Process 1.2](#) says ...

“How Tests May be Added to a TCK

The only time tests may be added to a TCK are in a major or minor release. A service release which updates the exclude list MUST not have test additions or updates (see exception below for addressing newer Java SE versions).”

Some options to consider:

- Alternate tests - Service release that include current test + alternate
- Leave it up to the specification team to change the tests

PR to be created against the TCK Process to propose alternate language to the “How Tests May be Added to a TCK” section
